Professional Summary

Computer Applications student and GenAI & Full-Stack Developer with experience building AI-powered and web applications using React, Next.js, Django, FastAPI, and REST APIs. Skilled in Generative AI technologies including LangChain, LangGraph, OpenAI API, RAG, and Hugging Face Embeddings for developing intelligent and context-aware systems. Strong foundation in Java, Python, and Data Structures & Algorithms, with a passion for building scalable and user-centric solutions.

Key Skills

LangChain • LangGraph • OpenAI API • Python • FastAPI • Django • React • Next.js • TypeScript • JavaScript • Tailwind CSS • SQL • MySQL • Git • GitHub • Postman

Projects

AI Portfolio Assistant | Personal Project | [Github](#)

Built an AI-powered portfolio assistant using FastAPI, OpenAI, LangChain, and RAG for context-aware responses.

- Developed the backend using FastAPI and integrated OpenAI and LangChain.
- Implemented a **RAG pipeline** with **Hugging Face Embeddings** for semantic search.
- Developed a responsive frontend with **React, TypeScript, Tailwind CSS, and GSAP**, focusing on performance and user experience.

BookMyShow | Personal Project | [Github](#)

Movie ticket booking web application inspired by BookMyShow

- Developed a full-stack movie ticket booking application using React, TypeScript, Tailwind CSS, and Django.
- Built RESTful APIs with Django to manage movie listings, seat selection, and booking workflows.
- Designed a responsive interface with a focus on usability and performance.

Nike E-commerce | Personal Project | [Github](#)

Built a Nike-inspired full-stack e-commerce platform with responsive UI and seamless REST API integration.

- Implemented Context API for efficient state management and API integration.
- Built responsive and reusable components for a modern user experience.
- Ensured clean architecture and scalable code for improved performance

Education

Bachelor of Computer Applications (BCA), Doranda College, Ranchi | 2023-2026 (Pursuing)

CGPA: 7.2/10

Additional Training & Certifications

Meta Full Stack Developer Specialization, Meta | 2025 | [Verify](#)

Advanced React, Meta | 2025 | [Verify](#)

Python for Data Science, AI & Development, IBM | 2024 | [Verify](#)

Technical Proficiencies

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Context API, GSAP

Backend: Django, Django REST Framework, FastAPI, REST APIs

Generative AI: OpenAI API, LangChain, LangGraph, RAG, Hugging Face Embeddings, Prompt Engineering, AI Agents

Database: MySQL, SQLite

Tools & Technologies: Git, GitHub, Postman, VS Code, Vite
